PROCEDURE AND FUNCTIONS

The screenshot displays a SQL IDE interface. The top toolbar includes icons for file operations, execution, and a 'Limit to 1000 rows' dropdown. The main editor contains the following SQL code:

```
2 • select* from employeee;  
3 DELIMITER &&  
4 • CREATE PROCEDURE new()  
5 BEGIN  
6 select* from employeee where salary>20000;  
7 END&&  
8 DELIMITER ;
```

Below the editor, the 'Result Grid' tab is active, showing the output of the query. The grid has columns for 'name', 'department', and 'salary'. Two rows are displayed:

	name	department	salary
▶	madhu	chennai	100000
	sandhiya	kadappa	200000

On the right side, there are buttons for 'Result Grid' and 'Form Editor'. The bottom status bar shows 'employee 2' with a close button and a 'Read Only' indicator.
